

Child Privacy and Protection Process

Password Protected

Our login process allows students and users to use passwords in order to access our platform. We encourage combination of number, letters and characters.

Employee Background Checks

Background checks are administered for every employee who works directly with our student such as our therapist and soon to be SEL coaches.

School Only Access

Our login is not a public login, and allows schools to only access their students and staff via password protected reporting.

First Name and Last Name- Unique Identifier

Our company only collects the first name and last name as identifiers for students creating usernames that are firstname.lastinitial.

Recording Livestream

Our livestream sessions are recording and stored in admin only spaces for later use, if needed.

Mandated Reporting Training

We ensure that partners have conducted state required mandated reporting trainer for their staff.

Trauma Informed Training

Our therapist offers a trauma informed webinar each month for teachers and parents to join for additional information on reporting and resources

Privacy Protection Data Transfer on Website

This communicates the process of our data transfer, collection of data, and dissemination of data.
